RE: Storm Connection

1.0 MECHANICAL

- .1 Refer to drawing M1.1 FOUNDATION PLAN PLUMBING AND PIT.
 Modify Keynote #4 to refer to 12" storm sewer size.
 Modify storm line connection size/location, and trench drain pipe size:

- .2 6" outlets on the trench drains are acceptable. Mechanical Contractor to upsize to 10" before they combine as per the tender drawings. Contractor to upsize again to a 12" near the service connection to reduce the amount of material costs for the project.
- .3 Quorex to coordinate storm line connection with Landlord's civil scope/location.
